Education

Vellore Institute of Technology	2022–2026
B.Tech in Computer Science & Engineering	CGPA: 8.53 / 10.0
DAV Public School, Dudhichua	2019–2021
Senior Secondary (Class XII)	CGPA: 9.20 / 10.0
DAV Public School, Surya Vihar	2018–2019
Secondary (Class X)	CGPA: 9.60 / 10.0

Technical Skills

Design & Prototyping: Figma, High-Fidelity Prototyping, Wireframing, User Flow Mapping, Design Systems
Frontend Technologies: **ReactJS**, **TypeScript**, JavaScript (ES6+), HTML5, CSS3, **Tailwind CSS**
UI Architecture & Principles: Responsive Design, Mobile-First Design, CSS Flexbox/Grid, Component-Based UI
UX Principles: Information Architecture, Usability Testing, Visual Hierarchy, Accessibility (WCAG Basics)
Tools & Collaboration: Git, GitHub, Vercel, Render, Notion, Agile Methodology

UI/UX & Frontend Projects

- ProjectHub — Student Project Lifecycle System** | *React, TypeScript, Figma, UI Workflows* [\[Link\]](#)
- Designed and engineered distinct, role-based UI workflows for Students and Faculty, ensuring intuitive navigation and clear information architecture for complex document submissions.
 - Developed a responsive component library using **Tailwind CSS**, focusing on visual hierarchy and consistent design tokens across the application.
 - Built the frontend execution of a document viewer, ensuring that complex AI-generated compliance data was displayed cleanly and accessibly to the end user.
- Rately — Multi-Tenant Platform & AI Chatbot** — *ReactJS, Tailwind CSS, Conversational UI* [\[Link\]](#)
- Created a scalable design system using reusable UI components, ensuring a seamless and visually consistent experience across diverse multi-tenant user flows.
 - Designed and implemented conversational UI patterns for an AI Chatbot, handling typing indicators, dynamic chat bubbles, and responsive error states to improve user engagement.
 - Leveraged **React Context API** to manage frontend state efficiently, ensuring real-time UI updates without compromising load times or user experience.
- ParkEasy — Smart Parking Reservation System** — *React.js, CSS Modules, Mobile-First Design* [\[Link\]](#)
- Conducted UX research to design a simplified, high-conversion booking experience, reducing user steps required for slot reservation.
 - Engineered real-time visual state management to dynamically and clearly represent available versus booked parking slots.
 - Developed responsive, mobile-first interfaces using **CSS Modules**, ensuring a flawless cross-device experience for on-the-go users.

Experience & Leadership

- CatCatchCode** catcatchcode.online | **Jul 2025 – Present** [\[Link\]](#)
- Co-Founder & Frontend UI Lead
- Engineered the platform's premium, high-contrast visual identity—utilizing deep navies, charcoal, and vibrant neon accents to engage an early-stage user community of 100+ students.
 - Led UX research and A/B testing initiatives to iterate on technical learning roadmaps, ensuring the frontend design effectively supported diverse learning styles and accessibility needs.
 - Designed wireframes and interactive prototypes for 100+ technical modules, bridging the gap between instructional design and frontend execution.

Publications

- Steal This AI Prompt: Business Ideas, Tools & Smart AI Hacks** | *Amazon KDP* [\[Link\]](#)
- Authored a guide on Prompt Engineering, demonstrating a strong ability to translate deep-tech capabilities into high-value, user-centered benefits and accessible workflows.

Certifications

- MERN Full Stack Certificate** — Specialized in Frontend Web Architectures, ReactJS Component Design, and UI Integration [\[Link\]](#)
- Cloud Computing (NPTEL)** — Foundations in Web Hosting, Frontend Deployment, and Content Delivery Networks [\[Link\]](#)
