Education

Vellore Institute of Technology	2022–2026
B.Tech in Computer Science & Engineering	CGPA: 8.53 / 10.0
DAV Public School, Dudhichua	2019–2021
Senior Secondary (Class XII)	CGPA: 9.20 / 10.0
DAV Public School, Surya Vihar	2018–2019
Secondary (Class X)	CGPA: 9.60 / 10.0

Technical Skills

Design & Prototyping: Figma, FigJam, High-Fidelity Prototyping, Wireframing, User Flow Mapping, Design Systems
UX Principles: User Research, Information Architecture, Usability Testing, Visual Hierarchy, Accessibility (WCAG Basics)
Visual Design: Typography, Color Theory, Component-Based UI, Micro-Interactions, Layout Design
UI Engineering & Feasibility: ReactJS, TypeScript, HTML5, CSS3, Tailwind CSS, Mobile-First Design, CSS Flexbox/Grid
Tools & Collaboration: Git, GitHub, Vercel, Notion, Agile Methodology, Design-to-Development Handoff

UI/UX & Product Design Projects

- ProjectHub — Student Project Lifecycle System** | *Figma, User Flows, Information Architecture* [\[Link\]](#)
- Designed distinct, role-based UI workflows for Students and Faculty, focusing on intuitive navigation and clear information architecture to streamline complex document submission processes.
 - Built a comprehensive and responsive design system and component library, establishing consistent design tokens, visual hierarchy, and typography across the application.
 - Created high-fidelity prototypes to visualize how complex AI-generated compliance data would be displayed cleanly and accessibly to end users before frontend implementation.
- Rately — Multi-Tenant Platform & AI Chatbot** — *Conversational UI, Design Systems, Figma* [\[Link\]](#)
- Architected a scalable design system utilizing reusable UI components, ensuring a seamless, visually consistent user experience across diverse multi-tenant flows (Admin, Owner, User).
 - Designed conversational UI patterns for an AI Chatbot, mapping out user journeys, typing indicators, dynamic chat bubbles, and responsive error states to maximize user engagement.
 - Conducted heuristic evaluations of early designs to iterate on UI elements, ensuring interactions felt natural and accessible on both desktop and mobile viewports.
- ParkEasy — Smart Parking Reservation System** — *UX Research, Mobile-First Design, Usability* [\[Link\]](#)
- Conducted competitor UX research to design a simplified, high-conversion booking experience that reduced the overall cognitive load and user steps required for slot reservation.
 - Mapped out real-time visual state management designs to dynamically and clearly represent available versus booked parking slots using intuitive color coding.
 - Created mobile-first interface designs, prioritizing touch targets and clear call-to-action (CTA) placements for an on-the-go user base.

Experience & Leadership

- CatCatchCode** [catcatchcode.online](#) | **Jul 2025 – Present** [\[Link\]](#)
- Co-Founder & Lead UI/UX Designer
- Spearheaded the platform's user experience and established a premium, high-contrast visual brand identity—anchored in dark navy, charcoal, and gold with vibrant neon teal and purple accents—driving engagement for an early-stage community of 100+ students.
 - Led UX research and A/B testing initiatives to iterate on technical learning roadmaps, ensuring the interface design effectively supported diverse learning styles and accessibility needs.
 - Designed wireframes and interactive prototypes for over 100 technical modules, effectively bridging the gap between instructional design strategy and frontend execution.

Publications

- Explain Like You Sell: Turning Tech Products into Stories** | *Amazon KDP* [\[Link\]](#)
- Authored a guide on technical product positioning, demonstrating a deep understanding of user psychology, empathy, and how to translate technical features into compelling, user-centered value propositions.

Certifications

- MERN Full Stack Certificate** — Provides strong technical foundation for design-to-development handoffs, ensuring UI designs are highly feasible for engineering teams [\[Link\]](#)
- Mastering Communications as a Leader** — Focus on stakeholder management, empathy, and effectively pitching design decisions [\[Link\]](#)
