Professional Summary

Technically-grounded **B.Tech (Computer Science)** student with a focus on **Resource Planning** and **Strategic Operations**. Proven expertise in deep **Project Scope Understanding**, identifying talent trends through data analysis, and leading cross-functional teams with **Extreme Ownership**. Adept at grasping complex technical requirements to optimize resource allocation and project alignment. A proactive professional with an **unbeatable work ethic** and a seeker mindset, committed to driving organizational growth through high-impact talent excellence.

Education

Vellore Institute of Technology B.Tech in Computer Science & Engineering	June 2026 (Expected) CGPA: 8.44 / 10.0
DAV Public School, Dudhichua Senior Secondary (Class XII)	2019–2021 CGPA: 9.20 / 10.0
DAV Public School, Surya Vihar Secondary (Class X)	2018–2019 CGPA: 9.60 / 10.0

Core Competencies

Talent Excellence: Resource Planning, Demand Forecasting, Talent Mapping, Project Alignment Strategy
Technical Literacy: Strong CS Background, SDLC (Agile/Scrum), MERN Stack, Python, API Architecture
Operational Ownership: Extreme Ownership, Risk Mitigation, Change Management, Proactive Problem Solving
Strategy & Analysis: Talent Trend Analysis, Project Scope Understanding, KPI Tracking, Data-Driven Decisions
Tools & Documentation: Advanced PowerPoint, Excel (Pivot Tables/Slicers), JIRA, Trello, Professional Email Etiquette
Professionalism: Seeker Mindset, Unbeatable Work Ethics, Cross-Functional Collaboration, Ambitious Execution

Strategic Resource Planning & Leadership Experience

- CatCatchCode — Ed-Tech Platform — Resource Planning & Team Operations** [\[Link\]](#)
- **Resource Planning:** Led a cross-functional team of 5, optimizing talent allocation across content and dev modules to ensure 100% on-time delivery of 100+ technical assets.
 - **Extreme Ownership:** Exercised end-to-end ownership of project milestones, proactively identifying and resolving resource bottlenecks to maintain high-speed execution.
 - **Demand Forecasting:** Analyzed student engagement trends to forecast content demand, effectively aligning team efforts with the most critical growth areas.
- Scholara — Academic Workflow System — Technical Scope & Talent Alignment** [\[Link\]](#)
- **Project Scope Understanding:** Translated intricate academic requirements into a structured technical scope, ensuring development talent was aligned with complex security and RBAC needs.
 - **Cross-Functional Collaboration:** Bridged communication gaps between Faculty (Stakeholders) and Developers, producing high-quality documentation to ensure clarity and process adherence.
 - **Trend Analysis:** Monitored system adoption data to identify performance trends, informing strategic adjustments to resource allocation for future feature updates.
- Satsang Seva — Digital Preservation Initiative — Strategic Pipeline Management** [\[Link\]](#)
- **Talent Allocation:** Architected a high-volume digitization pipeline, assigning specific targets to a distributed team based on individual strengths and project priorities.
 - **Proactive Response:** Maintained a rigorous tracking system to anticipate blockers, ensuring unbeatable work ethics across a contributor network serving 200M+ global followers.

Analytical Projects

- Excel Sales Performance Dashboard — Data Trends & Strategic Reporting** [\[Link\]](#)
- Engineered interactive KPI dashboards to track performance trends and support data-driven talent allocation.
 - Automated strategic reporting and data visualization to reduce manual overhead and improve decision speed.
 - Developed rigorous data cleansing workflows to ensure 100% accuracy in forecasting and resource planning.
 - Analyzed intricate transaction details to identify high-growth trends for proactive resource alignment.

Certifications

- Mastering Communications as a Leader** (LinkedIn Learning) — Jan 2023 [\[Link\]](#)
- MERN Full Stack Certificate** — Focus on Technical Architecture & Complex Project Logic [\[Link\]](#)
- Python Essentials** (VIT) — Focus on Data Trends & Backend Fundamentals [\[Link\]](#)
- Excel Essential Training** (LinkedIn Learning) — Strategic Reporting & Resource Forecasting [\[Link\]](#)
